LIFE EXTENSION

The potential for rejuvenation and regeneration is written into the DNA code. Tools and tricks will be shared that can slow, stop and even reverse the aging clocks at the DNA level. Dr. Todd is a Johns Hopkins trained medical doctor and researcher who passionately shares his expertise on nutrition, metabolism and natural methods to help you maintain health and balance.

PINEAL TONING TECHNIQUE™

Biological studies in plants have shown that the beneficial effects of toning reach and even exceed the effects of playing Mozart and can positively influence your DNA. Creating deep altered states, pineal toning is a system of sound syllables that are like letters of an alphabet that create a complex, multidimensional sound language. Two tone levels sung together create a quantum word. When these words are arranged in a sequence they create a quantum message.

QUANTUM CHOIRS FOR GLOBAL TRANSFORMATION

Old souls gather at sacred sites around the world to create a specific quantum message built from the Pineal Tone™ levels that are sung as pairs. In addition to profound personal benefits of this workshop, it qualifies you to participate in Quantum Choir events worldwide.
